

Exceptional service in the national interest

Los Alamos Energy Storage Analysis

Lee Rashkin, James Ellison, Dan Borneo and Ray Byrne

Acknowledgment: this work was supported by the DOE energy storage program under the guidance of Dr. Imre Gyuk.

Sandia National Laboratories is a multi-mission laboratory managed and operated by National Technology and Engineering Solutions of Sandia, LLC, a wholly owned subsidiary of Honeywell International, Inc., for the U.S. Department of Energy's National Nuclear Security Administration under contract DE-NA0003525.

Project Goals and Results

- Los Alamos Department of Public Utilities owns and operates a microgrid:
 - 2 MW solar
 - 8.3 MWh of batteries (lead acid plus 1 MW, 6 MWh Sodium Sulphur)
- Sandia evaluated the potential benefit of reducing penalty payments to PNM
